

To Whom It May Concern:

The following testimonial clearly demonstrates the impact that having wireless high-speed internet has had upon my hotel business, and how it may affect yours as well.

Recently, a businessman inquired a local business owner as to where he might find a location that had high-speed Internet available for travelers. The owner, knowing that my hotel had recently deployed wireless high-speed Internet, suggested to the businessman that he visit my hotel. Without hesitation, the businessman replied "Well, it looks like I am going to be changing hotels tonight." As a result, he changed his accommodations from one of our competitors to my hotel. We have since picked up additional business, specifically because we have installed wireless high-speed Internet with Wi-Fi Guys.
